Profile

Graduate in Applied Data Science, combining operational experience (administration, logistics, construction) with data analysis. I transform raw data into actionable insights and dashboards (Excel / Power BI), and automate processes (Python / SQL) to support decision-making.

Skills

- **Data analysis and structuring**
- **Advanced Excel (tables, automation, charts, dashboards)**
- **Power BI (data visualization)**
- **SQL (basic)**
- **Data cleaning and preparation**
- **Reporting and performance indicators (KPIs)**

Education

Postsecondary Diploma – Applied Data Science

La Cité College, Ottawa (Ontario)

September 2024 – April 2026

Key courses: Data Analysis, Machine Learning, Statistics, Power BI, Tableau, Python, SQL

Advanced Diploma in International Business

(IHEC) Institut des Hautes Étude Commercial de Sfax, Tunisia

2004 - 2010

Academic Projects

- Analysis and preparation of real-world data using a problem-oriented approach.
- Improvement of model performance through data transformation and analytical choices.
- Evaluation of models using relevant metrics to obtain reliable and actionable results.
- Translation of technical results into clear recommendations for decision-making.
- Design of interactive dashboards (Power BI, Tableau) to communicate insights effectively.
- Deployment of solutions as applications (Streamlit, Render) or interactive dashboards for non-technical users.
- Team collaboration with task management using Jira.
- Collaborative work on GitHub with version control and continuous integration.

Relevant Experience

General Construction Entrepreneur

Sfax, Tunisia

2017 - 2023

- Managed residential & industrial projects from planning to delivery.

- Applied **data-driven forecasting** for cost estimation, material planning, and scheduling.
- Coordinated suppliers, supervised staff, and optimized workflows.

Logistics & Event Coordinator

2015 – 2017

Meuble AZIZ, Sfax, Tunisia

- Organized logistics for trade shows and exhibitions.
- Collected and analyzed sales data for reporting.

Administrative Officer & Data Automation

2012 – 2015

Meuble AZIZ, Sfax, Tunisia

- Built Excel-based automation tools for treasury, HR, and supplier management.
- Created small databases for stock control and reporting.
- Provided managers with data-driven insights for decision-making.

Administrative & Financial Officer

2010 – 2012

Soltech Énergie Solaire – Sfax, Tunisia

- Managed payroll, invoices, and tax/social declarations.
- Maintained accuracy in financial and operational reporting.

Volunteer Experience:

- **R&D Manager**, Junior Entrepreneurship Club, IHEC Sfax (2009–2010): Organized seminars to promote entrepreneurship.
- **Member**, Junior Chamber International (2008–2009): Participated in community development and awareness events.
